

GokarajuRangaraju Institute of Engineering and Technology (Autonomous)

Report of the Event

Title of the Event: Workshop on PHP

Organized Date: 8th August 2016

Faculty: S Renuka

Summary:

About PHP and Web Development Workshops, Seminars and Corporate Training: Delhi Institute of Computer Courses (DICC) is proud to announce that it is now directly conducting workshops, seminars and corporate training for PHP, Web Development, online portal development, CMS development including Word press, Blogger, etc. all over India and across the globe.

You can contact us for organizing workshops, seminars and corporate training throughout India and we are also organizing International workshops. We have just finished up several PHP workshops in India and there are few others pending PHP workshops as well that are scheduled in the coming year of 2015. We do have certified and expert faculties of PHP who do have years of experience in designing responsive designs. We are targeting the major states and cities of India for PHP workshops including Mumbai, Bangalore, Tamil Nadu, Punjab, Gujarat, Pune, Lucknow, Haryana, Rajasthan, Karnataka, Kerala, Andhra Pradesh, Orissa, Goa, Madhya Pradesh, etc.

How long will the workshops and Corporate Training last? The duration of the workshop depends on the number of topics covered during the workshop. The average time duration for the workshops that we conduct so far would be of 2 to 3 days.
