

**GokarajuRangaraju Institute of Engineering and Technology
(Autonomous)**

Report of the Event

Title of the Event: Workshop on “Tizen OS Introduction” through TASK

Organized Date: 17th June 2017, TASK Office, Begumpet, Hyderabad.

Faculty: Mr. P. K. Abhilash

Summary:

After years of development, Tizen has been seen in some phones. Following this Samsung has also announced Tizen powered Gear-2 Neo and Tizen powered Samsung Gear. Samsung has also launched first smartphone of the world with Tizen operating system in Russia, named as The Samsung-Z. Till now Samsung was using Android operating system of Google to run Galaxy tablets and smartphones. However it has now proceeded with the development of **Tizen Samsung new mobile operating system** which acts as an alternative to iOS, Windows phone and Google`s mobile operating system. This OS is different from Android and is aimed at reducing the fan following of Android apps. This OS joins Jolla Sailfish, Ubuntu Touch and Firefox OS. Tizen is really impressive.
